

## Ladurée

### « A Tribute to Marie Antoinette »

Marie Antoinette, a legendary figure, a capricious sovereign,  
unappreciated heroine and the last Queen of France,  
left an everlasting mark on history thanks to her character,  
her style and, especially, her tragic death.

Her unique style is timeless.

Marie Antoinette is the historic figure that has always epitomized Ladurée  
and its pastel colours of blue, pink, green and mauve.

This is why Ladurée has been selected as exclusive “pastry” consultant  
for the film that Sofia Coppola will be dedicating to this historic figure.

The film’s set design crew and Ladurée have worked together  
for several months in order to recreate an enchanting universe  
where the love of good food takes pride of place.

This experience will forever remain a delicious memory  
in the history of Ladurée.
